

POINT TWO UPGRADE

Because you are already a customer, we would like to extend a discount on an upgrade to our newest air vests. We will buy back your older model for \$350 and apply that amount to a brand new Point Two Air Vest of your choosing. If you would like to have the latest and the greatest, we've got your back. And your front. And your sides for that matter. This offer is good for ProAir, Hunter, SoftShell and P2RS models.

The newest features of our airbag trigger system include:

- ✓ Simplified canister connecting system. A bayonet style connector makes it easier and faster to change your canister and reduces the risk of improper installation.
- ✓ Simplified way to secure the trigger system end cap. This comes with an allen key that is stored right on the trigger system to help tighten it.

Other great features:

- ✓ Vests now have a foam pad behind the trigger for an even, comfortable fit.
- ✓ Adjustable straps on both sides of the buckles for a more customizable fit (ProAir only).
- ✓ New pleated neck for better inflation action (ProAir & Hunter only).
- ✓ New neoprene collar for additional comfort (ProAir & Hunter only).
- ✓ 20% faster inflation rate – Point Two Air Vests now inflate between 60 and 80 milliseconds. Faster inflation means faster protection from impact.
- ✓ Lifetime warranty on the airbag component (subject to annual service).
- ✓ Each air vest comes with a saddle attachment and bungee lanyard.
- ✓ Meets all high-level safety standards (EN 13158: 2009 and SATRA M38)
